

Tourism Accommodation Levy Bylaw SS-25 Funding Application (rev 2008-1)

To apply for funding please complete this form to assist the Tourism Advisory Levy Committee (the "Committee") in determining the level and conditions of support that may be offered. A sample point value system for rating applications is set out in the Bylaw, although the Committee may make adjustments to their rating criterion from time to time.

The primary purpose of establishing the Tourism Accommodation Levy is to leverage financial resources for events providing significant economic benefits to Summerside. The information in this application will aid the Committee in evaluating proposed events and allocating its limited resources based on maximizing exposure, profile and long range economic impact on the city.

The Committee consists of three individuals representing the tourism sector and two City representatives. Approval for event functions requires a consensus of at least four of the five members.

Applications should be submitted no later than one month before the event. You can send your completed application by fax, e-mail, or regular mail to:
